List of Courses Offered for University of Malaya  
Student Exchange (UMSEP) for the 2017/2018 Academic Session

## BACHELOR OF ECONOMICS:

No.	Course Code	Topic	Pre-requisite	Credit	Courses Offered			Course Description	Other Description
					Please tick (√) where applicable				
					Semester I	Semester II	Special Semester		
<b>Department of Economics</b>									
1.	EIA2005	Introduction to Mathematical Economics	-	3	√	√	-	This course includes partial and general equilibrium model of demand and supply, linear model and matrix algebra, comparative static analysis (differentiation and integration), optimization problems, turning points, maximum and minimum, and input-output model.	-
2.	EIA2003	Malaysian Economy	-	3	√	√	-	The course focuses on issues which relate to the Malaysian economy. The discussion focuses on economic aspects of microeconomic and macroeconomic issues. Both internal and external factors that influence the economy will also be examined.	-
3.	EIX1002	Introduction to Law	-	3	√	√	-	This course intends to expose students to the basic concepts in law. These include the development and sources of the Malaysian law: comprise of written and unwritten law. This course also covers various legislations related to economic activities. Under the topic of administration of justice, students will be exposed to the hierarchy of courts in Malaysia and their respective jurisdictions either in criminal or civil law. A discussion on the courts with special jurisdictions and Alternative Dispute Resolution will end this course.	-
4.	EIA3003	History of Economics Thought	-	3	√	√	-	The course provides a survey on the development of economic theories from Aristotle to Keynes. Development of modern economic thought (after Keynes) is briefly addressed. Topics covered include: ancient Greeks, Arab-Muslim scholars and scholastics; mercantilism; physiocrats, classical political economics (Adam Smith; David Ricardo; Malthus; John Stuart Mill; Marx) and neoclassicalists. Aside from the direct knowledge and understanding of major contributions to economics, the course provides general insights into economic methodology and reasoning, and helps to deepen understanding of modern economic analysis.	-
